Employment History

Vrize, Belgrade

Front-End Developer

October 2022 – May 2025

Took part in the development of front-end applications with a focus on e-commerce, and a diverse set of clients who provided services ranging from fast food chains to digital printing and home décor consumer products. Some of the assignments included:

- Updating and optimizing PDPs (Product Detail Pages) and PLPs (Product Listing Pages)
- Website internationalization
- State management and back-end integration
- Bug fixing
- Implementing Federation-Based SSO (Single sign-on)

Quantox Technology, Belgrade

Front-End Developer

August 2021 – September 2022

Started out as an intern. I participated in an internal project focused on developing an HR application. In the later stages, I was involved in a start-up project focused on developing a price tracking and comparison application, where I contributed to the front-end development.
